

THANK YOU SENATOR ROY BLUNT

Your extraordinary leadership in Congress has made biomedical research a national priority and delivered hope to countless patients and families waiting for cures.

In the U.S. Senate, Roy Blunt has led the way with eight consecutive years of lifesaving increases to the **National Institutes of Health (NIH)** budget. The research funded by these increases will benefit Missourians and people the world over for generations to come.

Upon your retirement from Congress, the members of United for Medical Research say **Thank You** for your unwavering commitment to saving and improving lives affected by disease.
